Art Classes

Our art classes provide quality art education to students of all ages, skill levels, and abilities. Our once-weekly lessons will focus on line, shape, color, texture, form, and the use of various materials such as paper, colored pencil, pastels, charcoal, tempera, watercolor, acrylics, and many more! Students will learn:

Techniques in drawing, painting, and clay.

To play with color, find balance, and take their perspectives into a different level.

To develop a plan, follow steps, use their imagination, and take new risks.

To develop better hand coordination as well as intellectual skills.

Creativity, independent work, and critical thinking will be encouraged.

We focus on art history too! Each month all classes will focus on an era of art and each week of that month we will focus on a different artist from that era. As a result, students will be able to gain inspiration from famous artists from the past and present. The eventual goal in making art is to communicate ideas and personal emotions into the art pieces, and to learn how to appreciate art and grow into more educated and skilled individuals.

Here's how it works!

1. Look at our class schedule and select a day and time that works best for you.
2. Call us or come in to the studio to register for your class (class size limited to 10 students).
3. Come once a week for art classes (classes available in packages of four only).
4. Have a blast!
5. Take home a completed work of art each class
